COMPANY PROFILE

The Company

Founded in 1998, THE MONARCH ENTERPRISES is one of the leading manufacturers in Optical Display Solutions in India.

We are the premier resource in planning, designing and producing a successful optical environment. Optical display and display systems is our forte.

Our optical displays, display systems, components and accessories are the most efficient and effective way to showcase your frame inventory. A growing innovator in the optical display industry. We Manufacture, import, export and design everything needed in optical display while taking into consideration prevailing trends of the markets and the requirements of our clients.

Monarch Enterprises boasts of the largest collection of Optical Display products for retail showrooms under one roof. Our complete In-house capacities make Customization only a small process.

We also boast of standing by on our set discipline and principles. We conform to the Laws of Child Labor and do not employ children. We do not use leather in our products. Our products are made with non-animal tested materials and are either vegan or synthetic.
